- 14 - Misc. includes architectural drawings
- 15 – Misc. includes architectural drawings
- 16 – Oral History, Media, Tapes

OELLA COMPANY ARCHIVES ROOM _ Version 1.0 (9/10/2018), JN				
<p>The following spreadsheet represents items found in the Oella Company Archives Room. The broad physical location of these items is indicated in the "Location Shelf" column. The item number is indicated in the "Item #" column. Currently, as of 9/10/2018, individual items or documents are not housed or arranged by subject matter.</p> <p>The purpose of this Inventory is to identify <i>the present holdings</i> in the Collection <i>only</i> and to provide a mechanism for researchers to identify specific items or explore general topics for further research prior to arranging by an archivist (TBD). This "version" of the Inventory should be considered a Version 1.0 as it is a working document.</p> <p>You will find that some item descriptions are highly detailed and other items just describe an item in general terms. Still, this document has usefulness to help a researcher get what they need. Please identify items by "Location Shelf"+"Item #". For example, if you have found a document of interest that lists "facts about Oella", write, "006.F.0410". This item can be pulled for you to examine. - [Note, Julia N - 9/10/18]</p>				
LOCATION SHELF	ITEM #	ITEM DESCRIPTION	DOCUMENT TYPE	NOTES
001.A	0001	No ID, archival box
